**Sodom and Gomorrah words**

- rainbow apple Gomorrah wicked daughters
- ark daffodil salt burning fire Zacchaeus
- Sodom arrow trumpet bubble

The ruins of Sodom and Gomorrah have been discovered southeast of the Dead Sea. Both places were destroyed at the same time by an enormous conflagration. There seem to be a lot of subterranean deposits of a petroleum-based substance called bitumen, similar to asphalt, in the region south of the Dead Sea. Such material normally contains a high percentage of sulphur. Pressure from an earthquake could have caused the bitumen deposits to be forced out of the earth through a fault line. As it gushed out of the earth it could have been ignited by a spark or surface fire. It would then fall to earth as a burning, fiery mass.
