The Jews

Abram was promised so many descendants that nobody would be able to count them.

See how this happened

Genesis 35:23-26 Abram's grandson Jacob had sons.

Genesis 46:27 They all had sons and daughters and went to live in Egypt. How many?

Numbers 1 v 45-46 Tells how many male descendants each son had, and tells how many men of army age altogether.

Write this number again for the women.

The descendants of Levi weren't counted so, to include them and young and old people, add

792 900

Total (Do you get 2 million?)

2 Samuel 24:9 In the time of David, about 700 years later, the fighting men were counted again.

How many in Israel?

How many in Judah?

Total

Write this number again for the women

To include the descendants of Levi, young and old, add

1 400 000

Total (Just the last three numbers)
(Do you get 4 million?)

Today, there are millions of Jews scattered all over the world, and they really cannot be numbered. God is gathering them again to the land he promised Abram.
