Lesson 67 - Now something harder ...

The Dead Sea scrolls

Isaiah 30 v 8

God told Isaiah that what he wrote
on the scroll would be

The caves in Qumran, where the scrolls were found

Part of the scroll of Isaiah, now in a museum in Jerusalem.

In AD 68 a group of strict Jews lived at a place called Qumran, near the Dead Sea. They read the Bible and kept hundreds of scrolls in jars in the caves where they lived. The Jews all died but the scrolls stayed hidden.

In 1947 a boy who was looking for his goats found the scrolls. It was a wonderful find because they contain many parts of the Old Testament, including a scroll of the prophecy of Isaiah.

So What God had said came true

The scrolls prove that when we read the Old Testament we are reading the same message as was written down before Jesus was born. Some people say that the Bible has been changed over the years but we know that isn't true.

They also found phylacteries

hidden in the jars. Try to find out what these are (Matthew 23 v 5 and Exodus 13 v 9 may help you). The white square is the size of a piece of parchment that was folded into the phylactery. On it was written Deuteronomy 5 v 22 - 6 v 9. Could you write all that in this space?

How are we like sheep?
How was Jesus like a sheep?
How do you think that Jesus
felt about these prophecies
as he grew up?
