Look through Acts 28 to find what happened to Paul next. Fill in the spaces in the text then complete the crossword.

After Paul left the island of (9 down) he travelled under (5 down) to Rome.

Some of the (14 across) who lived along the route invited him to stay with them, and others came from (6 across) to meet him.

This (4 across) Paul and he (2 across) God.

In Rome, although Paul was a (15 across) awaiting (16 across), he was allowed to live by (7 down) with a (13 across) to guard him.

He invited the (3 across) leaders to come to him, and he preached to them about (18 across - four words) and (2 down - two words). Paul preached in this way for two (11 across), and (12 down) all who came to see him, both (1 down) and (10 down).

In its day, Rome was the most powerful place in the world. But its power was not the power God has. Contrast the sorts of power there was in Rome with way in which God is all powerful.

WHERE
IS
THE
CENTRE
OF
POWER?

Many of you have learned about the Romans at school. What do you know about their religious beliefs. How would Paul's message have changed their lives?

There is evidence to suggest Paul's in-prison preaching was very successful indeed. Look at Philipians 4:21-22.

What does this imply?

The building in Rome where the senate used to meet. It was rebuilt in the last century but probably looked like this when Paul was in Rome.

Paul's fourth journey?

What we learn of Paul in Acts was obviously not his whole life but we can find out more from his letters.

These passages refer to things that happened later than the imprisonment in Rome. Find the places on a map and consider a possible route.
