

8 The Gospel - Telling other people

This is a discussion lesson. We all have experiences of trying to speak to others about what we believe. There are many examples of preaching in the New Testament which show us the principles and practices of Jesus and his apostles.

You may like to use these notes to record some of the discussion and the conclusions your group reaches.

What have you learned about how you should witness for Christ at school or college?

What do you intend to do differently in future, to help you to stand up for your faith and to help your friends.
